LinkedIn: linkedin.com/in/k-karthikeya-073221335 | **GitHub:** github.com/Krthtz

PROFESSIONAL SUMMARY

Final-year Bachelor of Computer Applications (BCA) student at KL University (CGPA: 8.44/10.0) with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and Full Stack Web Development. Proficient in Java, SQL, JavaScript, React, Node.js, Express.js, and MongoDB, with hands-on experience building scalable REST APIs, database schemas, and responsive user interfaces. Certified in Azure AI Fundamentals and Machine Learning basics, passionate about backend engineering and scalable software architectures.

TECHNICAL SKILLS

- **Programming Languages:** Java, SQL, JavaScript (ES6+), TypeScript, Python
- **Frontend Technologies:** React.js, HTML5, CSS3, Responsive Web Design, DOM Manipulation, Dynamic UI Development, Client-side State Management
- **Backend Engineering:** Node.js, Express.js, Spring Boot, REST API Development, CRUD Operations, JWT Authentication, Backend Architecture, API Integration
- **Database Systems:** MongoDB, MySQL, Database Schema Design, SQL Queries, Data Modeling
- **Developer Tools:** Git, GitHub, VS Code, Vercel, Render, Postman, Version Control Workflows
- **Core Computer Science:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Java Collections Framework, Exception Handling, MVC Architecture
- **Cloud & AI Fundamentals:** Microsoft Azure AI Fundamentals, Machine Learning Fundamentals, Data Preprocessing, Feature Scaling, Model Evaluation

EDUCATION

Bachelor of Computer Applications (BCA) Expected Graduation: 2027

KL University, Vaddeswaram, Andhra Pradesh | Current CGPA: 8.44 / 10.0

Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Software Engineering, Web Technologies, Artificial Intelligence Fundamentals

INTERNSHIP EXPERIENCE

Web Development Intern — Thiranex July 2026 – August 2026

- Built and optimized 5+ responsive user interfaces using HTML5, CSS3, and JavaScript (ES6+), enhancing client-side interactivity and web user experience.
- Executed rigorous cross-browser testing and responsive layout adjustments to maintain consistent performance across mobile and desktop environments.
- Collaborated with frontend engineering team using Git and GitHub version control workflows to implement structured UI/UX improvements.

Machine Learning Intern — LearnFlu June 2025 – October 2025

- Developed and evaluated classification and regression models in Python, executing predictive data modeling workflows on structured datasets.
- Executed data preprocessing routines on datasets with 1000+ records, addressing missing values, outlier removal, and feature scaling.
- Analyzed model performance metrics including accuracy, precision, and recall to optimize algorithm parameters during training iterations.

PROJECTS

NIVOR — Full-Stack Personal Productivity & Personal Workspace

Live Demo: https://nivor-iota.vercel.app/ | **Tech Stack:** React 19, TypeScript, Vite, Java 21, Spring Boot, PostgreSQL, Vercel, Render

- Architected a comprehensive full-stack personal workspace designed for planning, knowledge capture, focused work, habits, and personal financial tracking using a modular Controller–Service–Repository architecture.
- Engineered secure backend REST APIs using Java 21 Spring Boot, implementing JWT authentication, BCrypt password hashing, protected routes, CORS, and owner-scoped authorization.
- Modeled a normalized PostgreSQL database schema using DTOs, JPA/Hibernate, transaction management, input validation, and centralized exception handling.
- Developed a responsive frontend using React 19, TypeScript, and Vite, featuring optional privacy-focused AI-assisted workflows requiring explicit confirmation for write operations.
- Managed production deployments using Vercel for frontend assets and Render for cloud backend infrastructure.

MEDISHIELD — Pharmacy Operations & AI-Assisted Compatibility Screening

Live Demo: https://medishield-ycvj.onrender.com/ | **Tech Stack:** Python, Google Gemini API, PostgreSQL/MySQL, Gunicorn, Render

- Engineered an authenticated pharmacy operations web application MVP managing medicine catalogs, inventory control, patient records, prescription billing, and automated invoice generation.
- Integrated Google Gemini API ("AI Guardian") for medicine ingredient normalization, structured JSON validation, compatibility screening, severity classification, and interactive override gates.
- Built secure backend workflows supporting role-based access control, CSRF protection, password hashing, input validation, and transactional database operations.
- Implemented robust billing controls featuring stock/expiry validation, 12% GST calculation, invoice snapshotting, atomic stock deduction, and automatic stock restoration upon cancellation.
- Developed CSV/PDF reporting, import/export capabilities, dashboard analytics, system notifications, and deployed the solution on Render using Gunicorn.

tmfy. — Personalized Digital Notes Web App (Side Project)

Live Demo: https://tmfy.vercel.app/ | **Tech Stack:** HTML5, CSS3, JavaScript (ES6+), Vercel

- Built a lightweight web application for creating and sharing personalized digital notes through unique generated links.
- Designed five themed visual experiences with customizable recipient, message, sender, and message-starter options.
- Implemented dynamic DOM manipulation and a one-click clipboard sharing workflow for instant note distribution.

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals — June 2026
- Artificial Intelligence Certification — LearnFlu (AICTE Approved, 2025)
- AI Agent Builder Masterclass — GSDC (Topics: AI Frameworks, ISO 42001 Standards)

HONORS & ACHIEVEMENTS

- **Code4Change 2025:** Participated in a 48-hour National Level Hackathon organized by Startup Society at KL University.
- **IndiaSkills 2026:** Registered competitor for national skill demonstration and software development competition.
- **Public Speaking & Presentation Training:** Completed 5-day intensive training and delivered technical presentations to large audiences.

SOFT SKILLS & LANGUAGES

- **Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Technical Communication, Public Speaking, Presentation Skills, Adaptability, Time Management
- **Languages:** English (Fluent), Telugu (Native)
